

## Bulletin of the British Myriapod Group 6

### AUTHOR INDEX AND GENERAL INDEX FOR VOLUMES 1-5

The General Index is mainly a summary of the TITLES and the subject matter evident from these. There are three sections within the alphabetic sequence: CENTIPEDES, DISTRIBUTION and MILLIPEDES; these each are in alphabetic sequence; a space indicates the end of each of these three sections.

### Author Index

Barber, A.D.	I 5,39 II 34 III 26,29 IV 41,51	Jensen, I.M.	V 38
Bilton, D	V 37	Jones, R.E.	IV 7 III 17
Blower, J.G.	I 9 II 3,8 III 11,43 IV 27,37,53	Keay, A.	II 24 III 17,21 IV 16,52
Brade-Birks, S.G.	I preface, 1	Kime, R.D.	II 39 IV 30 V 6
Celerier, M.C.	V 35	Lewis, J.G.E.	IV 5,30 V 3,6,9,36,37
Dohle, W.	II 48	Lewis, S.J.	IV 30
Eason, E.H.	IV 50,51,52	Morgan, I.K.	V 11,39

Hopkin, S.P.	IV 22,27 V 28,38	Turk, S.M.	V 40

### General Index

Albinos,	V 38	DISTRIBUTION (cont)	
Anamorphosis, cartoon	II 48	Lothians	IV 49
Bibliography, myriapod papers up to 1969	I 34	Normandy	IV 30
British Myriapod Group, inauguration	I 1	Scilly Isles	IV 7
B.M.G. meetings, Brendon and Kington	I 1-4	South Wales	V 11
British Myriapod Survey, inauguration	I 5	<u>Thalassiosobates littoralis</u>	II 6
CENTIPEDES		European Myriapod Survey	II 39
<u>Brachyschendyla dentata</u>	II 34 IV 41	History, early myriapodologists	I 7
Cannibalism	V 39	Humidity, tolerance in <u>Haplophilus, Henia</u>	IV 16
<u>Chaetochelyne (-Henia) vesuviana</u> , habitat	II 24	MILLIPEDES	
<u>Chalandea pinguis</u>	II 34	<u>Albinos, C. punctatus, Polydesmus denticulatus</u>	V 38
Chilopoda, new since Eason, 1964	II 34	Anamorphosis, cartoon	II 48
<u>Cryptops</u> , growth anomaly	V 3	growth of ocelli	II 8
Ecology and distribution in Europe	IV 5	<u>Blaniulidae, misplaced ocelli</u>	IV 27
Distribution in south east	V 6	<u>Blaniulus guttulatus</u> , eating <u>Ophyiulus</u>	V 39
in Ireland	I 39	<u>Brachychaeteuma</u> spp., gonopods compared	III 43
<u>Geophilus</u> , rhyme	III 1	<u>Chordeumatidae, British</u>	II 8
<u>G. carbochagus</u> ( forma major)	I 7	<u>Chordeuma proximum</u> , life-history	V 24
<u>G. proximus</u>	IV 53	Consumption of leaf litter	V 35
<u>Haplophilus subterraneus</u>	III 29	Distribution, up to 1969	I 9
<u>Henia vesuviana</u> , as predator	IV 16	<u>Enantiulus armatus</u>	IV 51
attacked by <u>Staphylinus</u>	III 21	<u>Glomeris</u> , mimics Black Widow?	V 38
<u>Lithobius</u> , structural abnormality	IV 22	Millipede Recording Scheme	II 42
cannibalism	V 36	<u>Poratia digitata</u> , new to Britain	III 11
<u>L. crassipes</u> , secondary sex character	V 39	Racing!	V 40
<u>L. pilicornis</u> , in Yorkshire	IV 52	<u>Thalassiosobates littoralis</u> , distribution	II 6
<u>L. variegatus</u> , extra moult	IV 52	<u>Trachysphaera lobata</u> , new to Britain	III 17
Provisional Atlas	V 36		
<u>Schendyla</u>	III 40	Mimicry	V 38
<u>Scolopendra</u> , imported with bananas	IV 41	Obituaries, S.M. Manton, S.G. Brade-Birks,	
<u>Tygarrup javanicus</u> , new to Britain	V 36	C.H. Brookes	II 3-4
DISTRIBUTION	V 3	Predation, by <u>Henia vesuviana</u>	III 21
Chilopoda in the south east	I 39	by <u>Blaniulus guttulatus</u>	V 39
in Ireland	III 1	Rhymes, <u>Geophilus</u>	I 7
in Shetland	III 29	millipede	II 48
Millipedes in Britain, up to 1969	I 9	SYMPHYLA	V 28
Myriapoda, Brittany	III 26 IV 37		
Carlisle	V 6		
Finistere	V 37		
	V 6
